(subject to suitable support and installation in accordance with the manufacturer's instructions)

In accordance with neaco's policy of rigorously checking and testing our products to maintain quality and safety, all neaco grab rails and seats have been tested to strict loadbearing parameters.

PERIODIC CLEANING & MAINTENANCE INSTRUCTIONS

All surfaces require periodic washing down with soap and warm water, and finally drying off with a clean cloth.

DAMAGE

Should the surface of powder coated Support System become heavily scratched or cut, specialist attention will be required in order to repair or replace.

NOTE: On no occasion use ACIDS or CAUSTICS.

In the event that any problem should arise please contact the manufacturer.
