

[FAQ]

## SUPPORT SYSTEMS

### Are items such as grab rails and support rails in standard sizes?

Yes - we offer three standard lengths for Freedom grab rails (300mm, 450mm and 600mm) and four for support rails (650mm, 750mm, 800mm and 850mm). We also provide L-shaped grab rails in two standard sizes. All Freedom rails are 32mm in diameter. In some cases we are able to provide bespoke options with non-standard dimensions for certain Freedom items.

We offer three standard lengths for Alutec grab rails (300mm, 450mm and 600mm) and two for support rails (760mm and 850mm). We also provide L-shaped grab rails in two standard sizes. All Alutec rails are 32mm or 35mm in diameter.

### Are fixings and fitting instructions included?

We supply full fitting instructions with all of our support systems and our Freedom range is supplied boxed with all fixings included, but you will have to purchase fixings such as screws separately for Alutec. However, the Alutec range is suitable for plenty of standard fixings available at builders merchants and DIY stores.

### Do you include matching accessories such as toilet roll holders or mirrors?

Alutec support rails are available with the option of a retro-fit toilet roll holder, but the range doesn't include separate toilet roll holders or items such as mirrors and shelves. If you would like accessories like these, please choose our Freedom range which offers an excellent selection of matching accessories.

### What choice of colours and finishes are available?

Standard Freedom colours include a choice of five Classic colours, five Contemporary colours and two metallic finishes. In some cases we are able to provide bespoke options with non-standard colours for certain Freedom items. Standard Alutec colours are blue and white.
